

☰ Who We are ? ☰

The best-in-class laboratories from across India, UAE & South Africa have united under the banner of Neuberg Diagnostics to bring the latest technology and techniques within the reach of developing countries. Utilizing their combined strengths, the Neuberg alliance brings capabilities to perform over 5000 varieties of Pathological investigations and will promote Prevention & Early Diagnosis, Focused Wellness Programs and Structured Disease Management programs for rare diseases using the most advanced technologies assisted by Data science and AI tools.

The founding members of the Neuberg consortium - Anand Diagnostic Laboratory (Bangalore), Supratech Micropath (Ahmedabad), Ehrlich Laboratory (Chennai), Global Labs (South Africa), and Minerva Diagnostics (Dubai) bring their combined heritage of over 200 years and process over 20 million samples annually. Some of the best Pathologists, Biochemists, Geneticists, Microbiologists and several other Clinical Lab Professionals from around the world are working closely, sharing knowledge and using the latest generation of diagnostics techniques to take accurate and timely diagnosis to the next level.

☰ Our Quality Policy Statement ☰

The Management and Staff of Neuberg Diagnostics are committed to total patient satisfaction by:

- Providing a wide range of medical laboratory testing facilities that satisfy the requirements of patients, treating and allied stake holders.
- Providing best in class services through good laboratory practices and world class technology with trained, competent, and educated human resource, and lean, user friendly processes while keeping in mind patient care as top priority.

Vision Statement

Lead the Movement Towards Early & Accurate Diagnosis, Enabling Better Quality of Life.

Mission Statement

Deliver Deep Insights by Making State-of-the-art Technology & New Generation Daignostics Accessible & Affordable to People Around the World

Pathology

- Glucose Fasting (FBS),Sodium Fluoride Plasma
- Complete Blood Picture (CBP), EDTA Whole Blood
- Lipid Profile, Serum
- Creatinine, Serum
- Thyroid Profile (T3,T4,TSH), Serum
- Glycosylated Hemoglobin (HbA1C), EDTA Whole Blood
- Vitamin B12 (Cyanocobalamin), Serum
- 25 - Hydroxy Vitamin D, Serum

Pathology

- Thyroid Stimulating Hormone (TSH) Ultrasensitive, Serum
- Complete Urine Examination (CUE), Urine
- Liver Function Test (LFT),Serum
- Blood Grouping ABO & Rh Typing, EDTA Whole Blood
- Dengue (IgG & IgM), Serum
- Dengue Antigen (Ns1) Rapid, Serum
- C-Reactive Protein (CRP), Serum
- Widal (Slide Method), Serum

Radiology

- X-Ray Chest PA View
- X-Ray PNS
- X-Ray Lumbar Spine AP/LAT
- X-Ray Both Knee AP/LAT (Standing)
- Ultrasound Whole Abdomen
- Ultrasound Antenatal
- Doppler Peripheral Bilateral
- Doppler Peripheral Bilateral
