

NOTES

Scoparia Dulcis Linn.

Some remarks on the distribution of this plant appeared on page 57, vol. II of this Journal. A specimen of it has been received from the Garo Hills and it has occurred to me that it would be of interest and of use in tracing the course of dispersal of this alien in India if the abovementioned note were supplemented by a list of the localities in which specimens in the Kew Herbarium have been collected, together with the dates of collection and the elevations. All the specimens are the flower and fruit. The spelling of place-names given on the sheets is retained.

Punjab: Karnal Jungle, J. R. Drummond, September, 1886

Ghogripur Jungle, Karnal, J. R. Drummond, September, 1887

United Provinces: Moradabad, T. Thomson, July, 1843

Saharanpur, J. F. Duthie, March, 1897

Pilibit, Inayat (Duthie's Collector), June, 1898

Chota Nagpur: Lohardugga, J. S. Gamble, December, 1880

Dounga, 1,500-2,000 ft., J. J. Wood, April, 1891

Silonga, 2,000-2,500 ft., J. J. Wood, December, 1890

Assam: Jalpaiguri, 300 ft., J. J. Wood, November, 1898

Western Duars, H. H. Haines, Rains, 1899

Sherkor, Lushai Hills, about 3,000 ft., Miss T. L. M. Lorrain
about 1926

Tura Mountain, Chao Hills, 4,000 ft., Mrs. N. E. Parry,
November, 1929

Bengal: Carragola, Ganges Valley, Treutler, January, 1875

Beanledh (?), C. B. Clarke, April, 1875

Chittagong, J. M. Corvan,

Madras: Nilambur, S. Malabar, Sir A. G. and Lady, Bourne, October,
1913

Machiput Vizagapatam, 3,200 ft., A. W. Lushington, June,
1915
